

Why do we collect this information each year?

It is important for Coronado Shores to have current contact information for our owners.

This is especially true if weather causes pipes to freeze, limbs to fall or some other similar emergency. It also ensures accurate and timely delivery of CSBC correspondence.

Confidentiality is important to all of us and your information will be used for only business and notifications relating to CSBC, Inc.

We are actively working towards going paperless. Providing your email will help us to achieve that goal.
